Council of State Governments

From: Charley Adams, Director
Professional Relations
National Stuttering Association

Re: Audiology & Speech-Language Pathology Interstate Compact (ASLP-IC)

Dear Dan,

The National Stuttering Association is dedicated to bringing hope, dignity and support to children and adults who stutter. Toward that end, we are in favor of evidence-based speech therapy for stuttering, for those who seek it. Because the ASLP-IC is likely to improve access to speech therapy for people who stutter, the National Stuttering Association is glad to support it.

Please keep us apprised of this legislation!

Best,

Charley Adams, PhD
Director, Professional Relations
National Stuttering Association
