Re: Support for ASLP-IC

Dear Dr. Logsdon,

I am writing in support of the Audiology & Speech-Language Pathology Interstate Compact (ASLP-IC).

Audiologists and speech-language pathologists have often had difficulties in obtaining multiple state licenses to practice due to administrative burdens. These burdens have hindered their ability to provide quality services and restricted consumer access in underserved and rural communities. I am pleased that the ASLP-IC will address these issues by:

- increasing access to care for patients, clients, and/or students; and
- facilitating continuity of care when patients, clients, and/or students relocate or travel to another state, specifically with members of the military and their spouses.

Sincerely,

A handwritten signature in blue ink, appearing to read "Christopher Dromey".
