

Audiology Speech Language Pathology – Interstate Compact Letter of Support

We are writing to support the ASLP-IC in West Virginia because we know that interstate occupational licensure compacts are game changers for professions that want to reduce barriers for practitioners and increase access to services for consumers. Like compacts that already exist for nurses, physical therapists, physicians, psychologists and EMTs, the ASLP-IC will enhance licensure portability while simultaneously improving the ability of state boards to protect consumers.

We understand the ASLP-IC will benefit consumers, members and the professions by:

- Increasing access to care for patients, clients and/or students;
- facilitating continuity of care when patients, clients and/or students relocate or travel to another state; and
- allowing military personnel and spouses to more easily maintain their profession when relocating

We thank you in advance for supporting the ASLP-IC in West Virginia.
