

Compact Compliance Committee Summary

Agenda and Objectives

- Track member state implementation and progress on commission initiatives:
 - CompactConnect implementation
 - FBI CBC implementation
 - Member state establishment of fees for Privilege to Practice
 - Member state posting of ASLP-IC Rules
 - Jurisprudence Requirements
- Develop resources, guides and tools (audit checklists, FAQs, manuals) to assist states with compliance and transparency.
- Establish Commission Compliance Policy: How are concerns elevated when needed? What infractions are minor vs major? How to notify of member states of non-compliance. What constitutes default?
- Review and discuss developments that could affect member state participation in the compact (SHARE Act)
- Update the Executive Committee, Commission and other committees on matters affecting their work or compact’s overall performance.
- Foster collaboration among member states (public comment during meetings, “office hours”/listening sessions)

Additional Discussion Topics

Implementation and information sharing with National Practitioner Data Bank (NPDB)?

Committee

Objective Area	Activities	Status/Next Actions
Track member state implementation and activation	Develop table/spreadsheet of each member state and implementation tasks	Distribute to member state contacts and ask to update on each item OR assign groups of states to committee/subcommittee to research each member state
Compliance Support Tools	FBI CBC implementation best practices; CompactConnect implementation and activation check list; Rulemaking notice template; Define compliance terms and conditions;	Review other commission’s resources; drafting at future meetings;
Engagement with External Experts	Planned outreach to other compacts for best practices and expert presentations
